PCPack Connection 2010-5
Efficiently Optimized Design for Connection

Advanced Engineering Capabilities

Angle (Bolted, Welded)

Corbel, Haunch, Base Plate

Wall to Foundation

DT Slab to Shear wall

DT Flange to DT Flange

DT Flange to DT Flange (At ends)
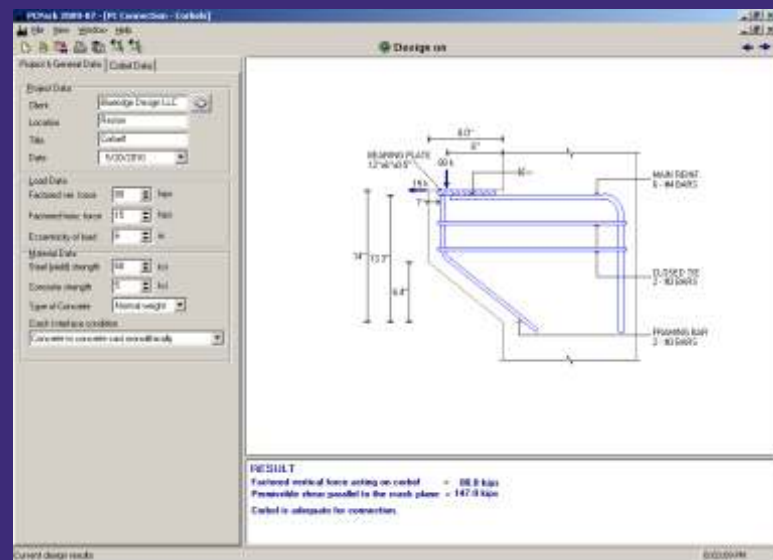

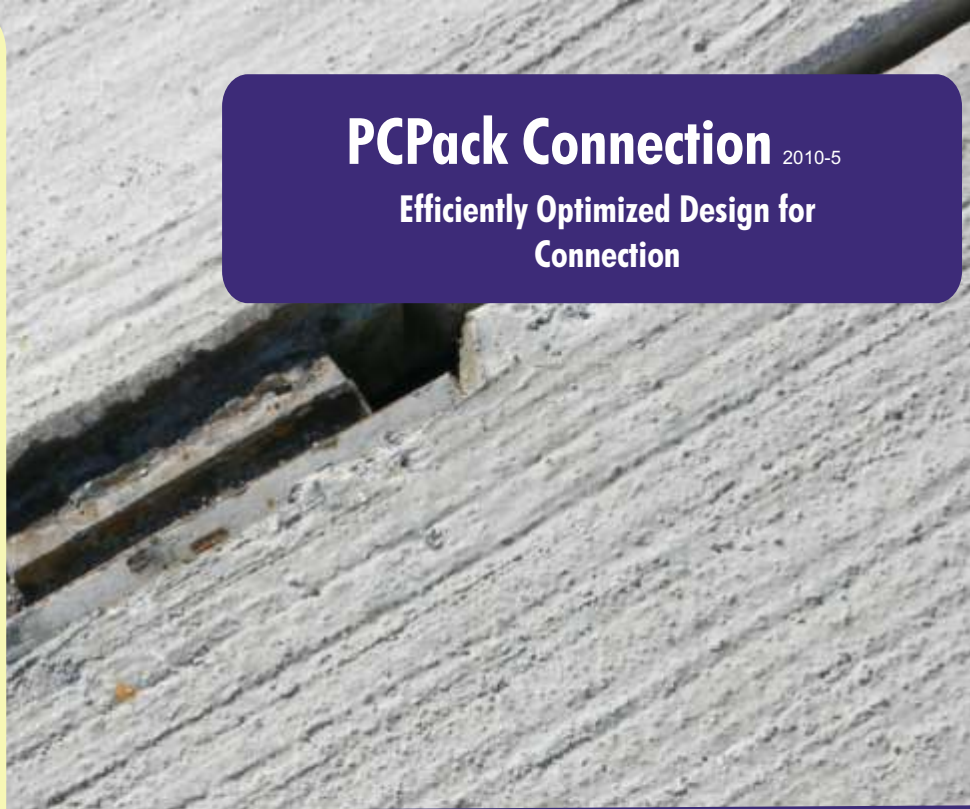

IT beam to DT Slab

Beam End Bearing

Design Codes

- ACI 318-08
- PCI Design Handbook 7th Edition
- AISC 13th Edition

Loading Options

- Axial loads
- Bending moments
- Shear Loads

User Friendly Features

- On-screen user manual and context sensitive help
- User friendly graphical interface
- User defined graphical cross section editor
- Alert for incorrect inputs
- Saves the latest design inputs as default
- Comprehensive summary reports
- Analysis result plot diagrams in terms of graphical output
